WELCOME TO BERCHTESGADEN – “GRIAS EICH GOTT!”

Arrive! Arrive to Mother Nature amid the only Alpine national park in Germany. Arrive to the warm friendship and hospitality of your hosts. Arrive to discover your true self, during relaxed hours filled with peace, quiet and pure enjoyment. Arrive – to your vacation in the mountains of Berchtesgaden!

WELCOME to Berchtesgaden

Whether you decide to go hiking and enjoy the nature of Germany's only national park in the Alps or prefer to float on a gondola up to unimagined heights. Whether you visit one of the many interesting museums or try something adventurous, such as a fixed-cable climb. Or if you just want to stroll around, do some shopping and taste regional specialties in one of the charming cafes and restaurants nearby - in this brochure you will find all the information you need. Of course, there's nothing better than a personal chat: the dedicated professionals of our local tourist offices look forward to helping you plan your perfect vacation.

THE GUEST CARD*

for your vacation in Berchtesgaden

Arrive for your well-deserved vacation: The Guest Card* makes the magnificent Berchtesgaden region even more attractive!

How and where do you get your Guest Card?

You will receive your Guest Card from your host as soon as you arrive here. Every over-night guest is entitled to the Guest Card, whether staying only one night or spending the entire vacation here in Berchtesgaden. The Card is valid until the day of your departure. Needless to say, every family member receives their own Card.

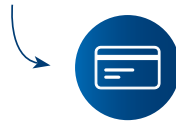

What advantages does the Guest Card give you during your vacation?

- Discounted entrance fees at excursion destinations, museums and special events
- Free bus and train rides when you show your Guest Card

TIP: With the digital Guest Card, you will already be able to ride the bus and train for free as you arrive.

How to find Guest Card partners in this brochure

This brochure summarizes all of the region's excursion destinations. This symbol shows you where you can enjoy the benefits of the Guest Card. The precise type and amount of each Guest Card benefit is listed for you on the Internet.

* Due to different Guest Card systems, precise Card benefits will vary. The Guest Card partners in this pamphlet are members of the association "Bergerlebnis Berchtesgaden".

Information about Guest Card Partners and discounts in the Rupertiwinkel communities of Anger, Piding and Teisendorf can be obtained from the respective local tourist offices or online at berchtesgaden.de/guest-card.

Hi, there! My name's Maxl!

Your digital holiday companion Maxl is always there whenever you need him. Register now and benefit from lots of valuable information! berchtesgaden.de/maxl

Complete information and benefits of the Guest Card available ONLINE at: berchtesgaden.de/guest-card

*Delicious snacks enjoyed in front of the
Klausbachhaus*

With the Guest Card, you can ride the bus for free in Berchtesgaden.

TRAVEL BY BUS FOR FREE

The Guest Card as your ticket

**Are you and your family here to do some hiking?
Then simply leave the car behind!**

For your vacation, you will receive your very own Berchtesgaden Guest Card.

With the Guest Card, you can ride almost all lines of Regionalverkehr Oberbayern (RVO) for free - even to Lake Chiemsee.

When riding the bus for free, there are a few exceptions:

- Kehlstein Line (849) special fare
- RufBus Berchtesgaden special fare
- AlmErlebnisBus special fare
- Rossfeld Line (848) additional fee
- Salzburg (840) additional fee

The
Deutschland-
ticket is also valid
on regional
buses!

You can also travel for free on the Bavarian Regiobahn (BRB) by presenting your Guest Card in the Berchtesgaden region, including all the way to Bad Reichenhall and Salzburg.

Flexible thanks to On-Call Bus Service

If the departure times of the regular buses don't suit your desired tour, consider making use of RufBus Berchtesgaden. By making a reservation at least two hours before your preferred travel time, you'll be picked up or dropped off at a stop within the extended bus network. RufBus Berchtesgaden operates from 7:00 am to 10:00 pm. The reservation hotline is open from 8:00 am to 9:00 pm. The fare for the journey is based on the fare zones of the regular bus network. You can obtain a brochure with additional information about RufBus Berchtesgaden at the local tourist information.

AND AWAY WE GO

Berchtesgaden's excursion destinations await you!

At the foot of the 2,713 meters-high Watzmann stretches a magical landscape: Craggy peaks and charming alpine meadows, deep gorges and clear mountain lakes, traditional farms and modern lifts. Experience the pristine nature of Berchtesgaden while walking or hiking, downhill or cross-country skiing.

Discover the history, the traditions and what makes the people here who they are, as you visit our many excursion destinations, shop and eat out, and unwind completely at the spa. So head for that museum, lift, pedestrian zone or beer garden! The following pages compile all of the sightseeing attractions and unforgettable experiences awaiting you in Berchtesgaden! Enjoy the sensation of having arrived – in Berchtesgaden – for the vacation of your dreams!

Excursion destinations with this symbol are handicapped-accessible (with occasional restrictions). Obtain detailed information before your visit!

NATURE AND MOUNTAIN EXPERIENCES

By, on and even inside the mountains: The nature and mountain experiences in Berchtesgaden reveal whole new perspectives that leave you with lasting memories.

NATURE AND MOUNTAIN EXPERIENCES

By, on and even inside the mountains – everything
is possible in Berchtesgaden

Float up to the summit, venture deep inside the mountain, or hike through cavernous gorges: If you love the Alps, Berchtesgaden is certain to set your pulse racing in pure anticipation. Glide towards the mountaintops in the panoramic gondolas of the ultra-modern Jennerbahn, visit the world-famous Eagle's Nest amid high-alpine landscapes, visit the spectacular ice cave on the Untersberg, and ride the mine train into the historic salt mine! And this is just a small selection of the unforgettable experiences waiting for you here in Berchtesgaden.

*Panoramic views enjoyed from next to the 1837
meters-high summit cross on the Kehlstein.*

1 Jennerbahn

Float up to Berchtesgaden National Park. The Jennerbahn cableway next to Lake Königssee takes you up to 1,800 m above sea level, right into the heart of the hiking paradise inside Berchtesgaden National Park. The ride on the completely glass-sided gondolas allows you to enjoy breathtaking views of the surrounding mountain world. From the mid- or top station, countless hiking paths and trails lead across alpine pastures and high peaks. The lookout point just below the Jenner summit cross affords a spectacular view of Lake Königssee

far below. The National Park Info Point at the top station is well worth a visit in its own right, presenting a lot of interesting information about the rare flora and unique fauna native to this nature sanctuary.

Inviting places to stop for refreshments include the JENNERALM, a restaurant at the top station with a panorama terrace, as well as the HALBZEIT at the midstation. In winter, rookie skiers can practice their first turns inside Kinderland and on the blue-rated piste by the mid-station. Experience breathtaking nature.

Take relaxing walks in hiking boots or snowshoes. Or perhaps an exhilarating sled ride instead. The JENNER-HEX promises enormous fun for the whole family.

2 Kehlsteinhaus | Eagle's Nest

The Eagle's Nest is situated above Berchtesgaden at an altitude of 1,834 meters. Its history is inseparably linked to that of the Obersalzberg. Between 1933 and 1945, it served as a significant center of power for the Nazi dictatorship, second only to Berlin. It was the place where decisions regarding persecution, war, and genocide were made.

Constructed in 1937/38, the tea house was intended to serve as a political venue away from the public eye, aimed at impressing guests. After a steep mountain road, a passage leads through a tunnel to an elevator, which takes guests

up approximately 124 meters directly into the tea house itself. There, they are greeted by a breathtaking view of the surrounding mountain ranges.

In reality, the significance of the house during the Nazi era was limited. Hitler rarely visited to host diplomats or other foreign guests. More often, it was used by the Nazi entourage gathered at the Obersalzberg for recreation and private celebrations. Since 1952, the building has been utilized as a mountain restaurant and has become a tourist hotspot. The structure has largely remained original, while almost all other buildings on

the Obersalzberg from the Nazi era have vanished. An exhibition provides information about the history of the Eagle's Nest as well as its connection to Hitler and the Obersalzberg.

3 Berchtesgaden Salt Mine

Slithering down into the depths of the Berchtesgaden Salt Mine is one of those childhood memories that last a lifetime.

In the oldest still-active salt mine in Germany, the miners take you into a fascinating subterranean world.

For young and old, this 90-minute guided tour is an exciting excursion, regardless of the weather outside. Intriguing facts about "white gold" meld with highlights such as the miners' slides, the ride on the mine train, and a light

show over the mirror-like underground lake.

TIP: In combination with a visit to the Old Salt Works in Bad Reichenhall, experience the full, colorful history of salt in Berchtesgaden!

4 Old Salt Works in Bad Reichenhall

Visit probably the world's most beautiful salt works and experience the masterful technological achievements of bygone days underground. Surrounded by gigantic waterwheels and widely branched tunnel systems, the entire his-

tory of "white gold" as well as the Old Salt Works itself will be explained to you. For those of you who are particularly curious, the tour might well end in the Brand Museum. Here, you can closely read through all of the information one more time,

deepening your knowledge about the history of salt in Bad Reichenhall.

TIP: In combination with a visit to the Berchtesgaden Salt Mine, experience the full, colorful history of salt in Berchtesgaden!

5 Rossfeld Scenic Road

The highest scenic road in Germany – highest point 1570 m above sea level – leads into the heart of Berchtesgaden's unique mountain world, with views of Salzburg City and the Salzach River Valley. There

are several hiking routes including a marvelous panoramic path with info boards and benches to rest.

Your eyes wander from the Hoher Göll, across the Kehlstein and legendary

Untersberg, to the Dachstein and Tennengebirge. Two mountain inns and a kiosk (with handicapped-accessible WC) invite you to make a refreshment stop. The toll road is passable year-round.

TEISENDORFER BEER TRAIL

Craving a refreshing brew?

Of course, when you embark on the Teisendorfer Beer Trail, it's all about that beloved hop-infused beverage. The Wienerer private brewery is a seventh-generation family-run business.

This leisurely hiking trail takes you through lush farmland and verdant forests. Keep an eye out for

the hop vines as they lead you to a total of ten info boards about the history of beer and its various components, punctuated by cozy benches to take a breather. And if you want to treat your taste buds, stop by either Klosterwirt Höglwörth or Braugasthof Alte Post in Teisendorf for a snack with some liquid accompaniment.

TIP: During the week, you can shorten the return trip by catching the local bus (No. 829).

ALMBACHKLAMM AND ETTENBERG

Rushing mountain stream and Baroque frescoes

The hike through the Almbach gorge is a true adventure. Even the starting point, Germany's oldest still-operating marble mill, is highly fascinating. Since 1683, waterpower has been used here to grind balls made of Untersberg marble. The well-maintained trail through the gor-

ge offers exciting glimpses into the depths, where the raging mountain stream, waterfalls and pools can be admired. Further along, the gorge opens up into a lovely valley. At our destination, we are greeted by the picturesque Ettenberg pilgrimage church, a snack at the neighboring Mes-

nerwirt, and a magnificent view. The steep Hammerstielwand path leads back to the starting point.

TO THE TOP OF THE TOTER MANN

Calming mountain panorama

The Toter Mann and Hirschcheck are neighboring peaks high above Germany's first Bergsteigerdorf (mountaineer-friendly village) - Ramsau near Berchtesgaden. The trail,

also maintained for winter hikers, leads to the summit in about 1.5 hours. Just a short 15-minute walk away is the Hirschkaser mountain inn. The return hike follows the same path - or

ride the Hirschcheck chairlift down to the valley instead.

Looking from the Toter Mann to the Hochkalter

An interactive audio experience in Ramsau near Berchtesgaden

Join an extraordinary excursion to the Toter Mann! At nine stations along this interactive trail, you will get to know Johann Grill and Rose von Rosthorn-Friedmann. The mountain guide from Ramsau, who was the first to climb the East Face of the Watzmann in 1881, and the female climber who successfully tackled this same challenging route in 1896, share astonishing and impressive stories about the mountains of Berchtesgaden.

Find the app for download here: locandy.com/qr/de-ramsau-en

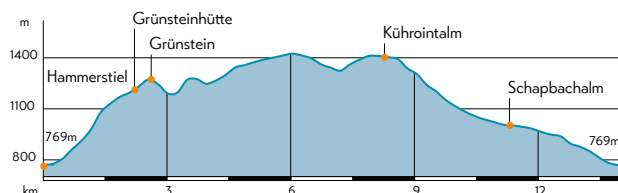

GRÜNSTEIN AND KÜHROINT

Two for one

This tour requires slightly stronger calf muscles: the ascent to the Grünstein is consistently steep. There, you will have the first opportunity to take a break: the Grünsteinhütte rewards you before, or after, the highly recommended detour to the very summit. From the summit of the

Grünstein, you are treated to a sublime view of the Watzmann. Next comes a varied passage leading to the alpine meadows of the Kühroint. We also suggest a side trip to the Archenkanzel with its unique view of St. Bartholomä below. After a rest amid the pastures or at the mountain hut, return

to the starting point via the forestry road and the Schapbachalm.

STEINERNE AGNES

Where mushrooms out of rock grow

The Steinerne Agnes has been acclaimed "Bavaria's most beautiful geotope". It is among the most popular photo motifs around Berchtesgaden. First, follow the forestry road towards Bischofswiesen, before ascending a narrow hiking trail meandering swiftly up through sparse deciduous forest until you reach

the tree line, the start of a bizarre karst landscape, crowned by a mushroom-like rock formation. Or is it not a mushroom, but rather the silhouette of the dairymaid Agnes, who was turned into stone as she fled from the devil? In Berchtesgaden's mountain world, you often encounter the mystical world of local

legends. As you drop back down to Winkl, several scenic viewpoints are also great opportunities for a bite to eat.

APPROPRIATE BEHAVIOR INSIDE THE NATIONAL PARK

Let nature be nature!

In Berchtesgaden National Park, plants and animals have been allowed to develop undisturbed for over 40 years. The most important task of a national park is to protect the rich nature while at the same time providing a space for human recreation. This requires mutual respect and consideration. So, do enjoy the rare orchids, lively marmots, tranquil forests, and breathtaking views, but also be sure to strictly abide by the rules of the National Park and teach your children to respect nature as well.

Berchtesgaden National Park is clearly marked on the map with distinct boundaries. However, for visitors the transitions are seamless. There are no tickets, entrance checks, or barriers. While hiking, you may find yourself quickly and unexpectedly entering National Park land, such as in Klausbachtal valley outside Ramsau near Berchtesgaden or in the Jenner area. Along the trails, you will encounter signs indicating that you are entering the National Park and what rules apply there to protect the flora and fauna.

»» LET NATURE BE NATURE!

SABRINA AUGENSTEIN

Ranger in Berchtesgaden National Park

»» We are delighted that you are visiting the National Park. To ensure that our nature remains as beautiful as ever, we kindly ask for your help. You may have already noticed that there are no trash cans in the National Park. That's because everyone packs out their snack leftovers for themselves. The beautiful flowers can be admired but not picked. Please stay on the designated trails to avoid disturbing wildlife. By doing so, chamois, marmots, and other animals won't be scared off, and you may actually have the chance to spot them. Feel free to take photographs, but ref-

rain from using drones, as the animals perceive them as a threat from the sky. By "keeping the volume down", you will hear the many different bird songs in the mountain forest and may even observe Three-toed Woodpeckers, Crossbills, and Tree Pipits. Please refrain from setting up tents or making fires. If everyone shows due consideration, we will all have a fantastic time inside the National Park, and our nature will remain a precious habitat for countless future visitors to come, as well as for the animals and plants that call it home.

THE BEARDED VULTURE PROJECT

Berchtesgaden National Park and the Bavarian Ornithological Society are planning to release additional vultures into the wild over the next ten years. Some 100 years after their initial extinction, this project aims to facilitate the reintroduction of the largest raptor in Central Europe to the Eastern Alps.

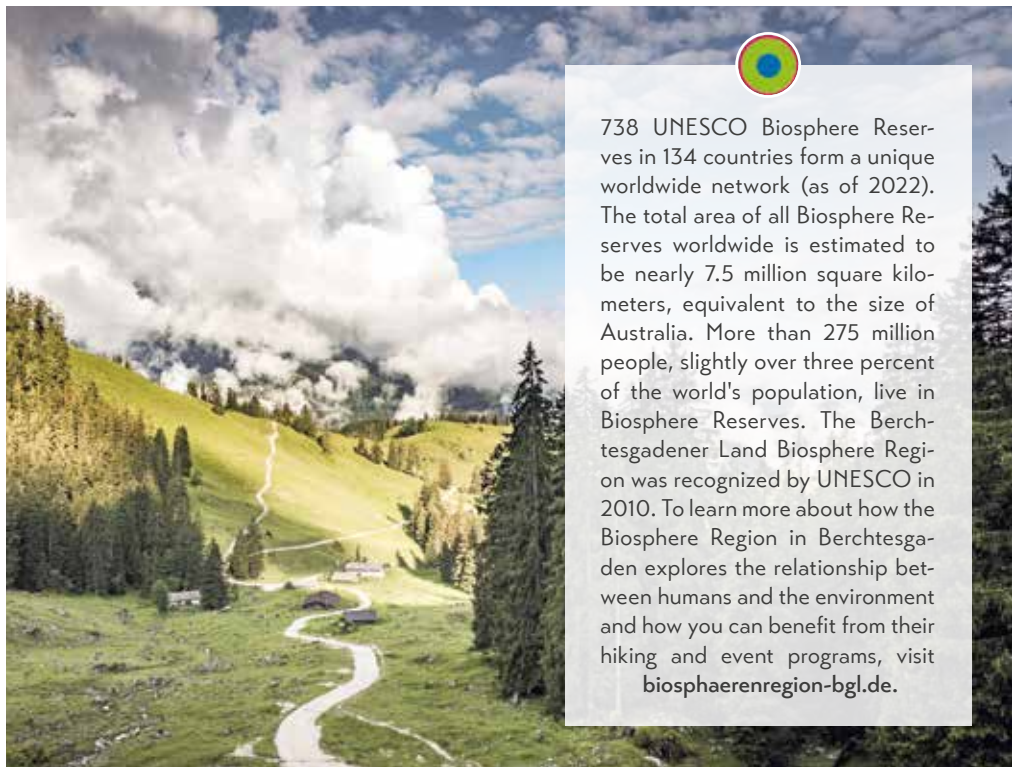

TIP:

Visit Haus der Berge - the "House of the Mountains"! Information about the National Park Center and other National Park information centers in Berchtesgaden can be found at: nationalpark-berchtesgaden.de/english/index.htm

Königsbachalm in the Jenner area

738 UNESCO Biosphere Reserves in 134 countries form a unique worldwide network (as of 2022). The total area of all Biosphere Reserves worldwide is estimated to be nearly 7.5 million square kilometers, equivalent to the size of Australia. More than 275 million people, slightly over three percent of the world's population, live in Biosphere Reserves. The Berchtesgadener Land Biosphere Region was recognized by UNESCO in 2010. To learn more about how the Biosphere Region in Berchtesgaden explores the relationship between humans and the environment and how you can benefit from their hiking and event programs, visit biosphaerenregion-bgl.de.

WATER, LAKES AND WELLNESS

Soothingly warm or mountain cold, crystal-clear freshwater or shimmeringly salty, as smooth as a mirror or turbulent and wild – water, the elixir of life, can be experienced in all its diversity, here in Berchtesgaden.

Bikers taking a break in the clear, fresh mountain water of Hintersee

WATER, LAKES AND WELLNESS

The Water of the Mountains

The grandeur of a fjord or small and secluded, icy cold or pleasantly temperate: Berchtesgaden has numerous lakes, surrounded by imposing mountain scenery certain to astonish you. Whereas lakes Königssee, Hintersee and Funtensee are more suitable for cooling your feet after a beautiful hike due to their icy-cold temperatures, you will most definitely feel like diving into the Höglwörther See – one of the warmest lakes in Bavaria.

Sustainability has long been a “big deal” here in Berchtesgaden: In fact, the boats on Lake Königssee have been electrically powered since 1909 – gliding silently and ecofriendly across the crystal-clear water. Today, some 19 almost identically designed boats driven by electric motors carry guests to St. Bartholomew’s Pilgrimage Church year-round and, in summer, to Salet at the far end of the lake. The boats are built at a small shipyard right there on Königssee, still true to their traditional design.

The Watzmann Therme and the pleasantly warm outdoor pools of the region are all about family fun and pleasant relaxation. A boat ride across the emerald-green natural jewel that is Lake Königssee, is an absolute must during your vacation in Berchtesgaden – a unique experience.

14 Königssee Ferries

Emerald-green water at the foot of the imposing east face of the Watzmann, in the heart of Berchtesgaden National Park. When it came to Königssee, Mother Nature created a true masterpiece. The greatest luxury of our bustling times is silence. The moment you step aboard one of the charming, electrically powered passenger ferries,

the noisy to-do of the outside world is left back on shore. As you sail across to St. Bartholomew's Pilgrimage Church, the boat captain will elicit the world-famous "Königssee Echo" from the steep cliffs.

TIP: In good weather, try to cross the lake before 10:30 in the morning and return in the early afternoon. This will reduce waiting times.

» **HEALTHY FUN FOR THE WHOLE
FAMILY – THE BRINE OF
BERCHTESGADEN IS BENEFICIAL
FOR BODY AND MIND** «

The spa, sauna and saltwater areas offer visitors, young and old, the right mix of relaxation, timeout from the daily routine and pure fun in the water.

This diverse water world with numerous attractions was created for the whole family – float down the lazy river, splash about in the parent-child area, swim laps in the sports pool, or race down the 80-meter Black Hole slide and try to set a new personal best. Things are a little quieter in the two saltwater pools. Natural Berchtesgaden brine cleanses the skin, strengthens

the upper layers of the skin and stimulates blood flow. The soothingly warm indoor saltwater pool is a place of relaxation for body and mind.

The outdoor pool treats you to open skies, views of the surrounding mountains and comfy loungers submerged in the water. In the sauna zone, seven saunas and a spacious outdoor area promise warmth and relaxation to your core. A wide selection of wellness treatments and massages add the perfect finishing touches.

Whether a typically Bavari-

an specialty such as Weisswurst with mustard and a giant pretzel, or something healthy like a big fitness salad – the restaurant at the Watzmann Therme is there to pamper your taste buds as well.

"Watzmann Therme" 

Natural brine is a source of strength for the whole body. The Watzmann Therme draws this brine from the depths of the nearby Berchtesgaden Salt Mine. In the saltwater area of the Watzmann Therme, the water is enriched with two- to three-percent original Berchtesgaden natural brine. The body and joints experience relief due to the natural buoyancy produced by the salt. Meanwhile, the brine positively affects the skin, blood circulation and respiratory passages. Stress reduction, as well as treatment of allergies, sleep disorders, headaches, skin and respiratory problems – natural brine can do it all. The brine is used in the Salt & Light Relaxation Cabin, the Salt Fountain Cabin, the Brine Grotto as well as the in- and outdoor saltwater pools.

FUN & RECREATION FOR THE WHOLE FAMILY

Of course, hiking, simply being out in the mountains, exploring nature in the National Park - that's what families in Berchtesgaden mainly want to experience. But there's even more than that! Wonderful playgrounds with astonishing scenery, exciting excursion destinations, fun swimming opportunities galore, plus a colorful variety of winter activities – so, let's set out on a family adventure in Berchtesgaden!

On the Fairytale Path in Bischofswiesen

On the way to the Kirchleint chapel

FUN & RECREATION FOR THE WHOLE FAMILY

Family excursion destinations, kid-friendly hikes, and lots of play opportunities in the mountains

Holidays are the most beautiful time of the year. Stresses and concerns are left behind. Relaxation, children's laughter, and having time for one other are what determine the daily routine. Our vacation consultants at the tourist information are happy to help you choose excursion destinations that are ideal for you and your kids. They can

provide suggestions that will even impress teenagers and recommend hikes and activities that will brighten up even a rainy day.

Hiking and enjoying nature are the two main activities that families in

Berchtesgaden love. The following three hiking tips are intended to inspire you to pack your rucksack and motivate your youngsters.

MAXI THE MARMOT

Hi there, let me introduce myself! I'm Maxi the Marmot, and I am the digital holiday companion as well as the mascot for the young guests here in Berchtesgaden. You are certain to come across my clever marmot buddies during your mountain tours - you just need to keep your eyes peeled. We enjoy sitting in front of our burrows, nibbling on stalks of grass and herbs, and paying close attention to everything going on around us. When it snows, we retreat for a long winter sleep. Make sure you pick up the stamp passbook just for kids. If you get out there and do lots of hiking, you'll receive a small prize! I hope you have an exciting time here in the Berchtesgaden mountains!

Your pal, Maxi the Marmot.

BERCHTESGADEN SALT MINE TRAIL

In the miners' footsteps

You will complete the first major leg by taking the local bus (No. 848). Below the church in Oberau, briefly follow the road towards Obersalzberg, then turn onto the Salt Mine Trail ("Stollenweg"). Constantly guided by the "white gold" theme, you will make your way through a sparse, light-filled mountain forest. Soon, it will be time to switch on

your flashlights. You'll pass through two historic tunnels, created by miners long ago. Who dares to enter first? Who needs to duck their head? It certainly piques your curiosity about Berchtesgaden's "salty" history, right? Afterwards, why not visit the actual Berchtesgaden Salt Mine, which has been in operation for five centuries. Embark on a

grand subterranean adventure with your family, including a ride on the miners' train, two thrilling slides, crossing the underground salt lake, and a spectacular light show.

FAIRYTALE PATH IN BISCHOFSWIESEN

In the footsteps of Cinderella, Sleeping Beauty, and others

A walk that brings joy to everyone, from toddlers to grandparents. This nicely maintained hiking loop features only a few minor ups and downs, and is stroller-friendly. It creates a magical atmosphere with lovingly carved fairytale figures, boards prompting you to

read out loud, and a vibrant mixed forest strewn with boulders. For those who are interested, there's also a fairytale quiz to solve along the way. Pick up a flyer to accompany this walk either at the Aschauerweiher swimming area or Bischofswiesen tourist information.

The reading boards and flyers are in German, so a translation app will be really helpful. Let's explore the Fairytale Path together!

BEE TRAIL

An instructive walk for the whole family

This relaxed walk from the Neubichler Alm over to the Johannishögl is quite delightful. Amid the idyllic pre-alpine countryside of the Rupertwinkel, surrounded by lush meadows and sparse deciduous forests, you'll walk in the footsteps, or rather flight paths, of

bees. Honeybees and wild bees, blossom honey and forest honey, beehives, and bee gardens - the informative panels along the path provide insights into the world of these vital insects, essential to our own existence. You'll certainly develop a greater apprecia-

tion for the next spoonful of honey you taste on your tongue. So, let's explore the Bee Trail, a fascinating journey for the whole family.

PLAYGROUNDS IN BERCHTESGADEN

Climbing, swinging, jumping - and always breathtaking scenery

Exploring, understanding, and learning to appreciate nature. Thankfully, something that's possible for children everywhere in Berchtesgaden. Whether hiking, taking walks, cycling, or even engaged in an array of wintertime activities, the youngsters have ample opportunities to connect with the outdoors. That said, if you are also hunting for imaginatively designed playgrounds with climbing features, slides, sandboxes, and more, all against a backdrop of stunning alpine panoramas, you'll most definitely find what you are looking for at every town and village in the Berchtesgaden holiday region.

Find playground addresses online at
berchtesgaden.de/wandern/familien-wanderungen/spielplatz

Bee-themed playground in Schönau am Königssee.

EXPLORING BY BICYCLE

Cycling kilometer upon kilometer. Through valleys, alongside lakes, up to the alpine pastures. Whether by mountain bike, road bike, or hybrid bike, whether powered solely by your own muscles or with electrical support, cycling in Berchtesgaden is undoubtedly the most beautiful way to explore the region which surrounds the Watzmann.

On the highest scenic road in Germany: The Rossfeld pushes you to go above and beyond.

CYCLING ADVENTURES

Exploring Berchtesgaden's Highlights on Two Wheels

The tread of your tires crunches along the gravel path. The air is fresh, carrying scents of the forest, grass, and herbs. The mountain panorama sometimes leaves you in awe. The bells of cows grazing on the pastures jangle in the distance, whetting your appetite for the delicious snacks that await you there. If you don't have your own bike, you can always rent one, whether traditional or electric, from one of Berchtesgaden's bike shops, and embark on a marvelous journey into the cycling paradise that is Berchtesgaden.

A list of bike rental shops can be found here:
berchtesgaden.de/rad-bike/radverleih-ebike

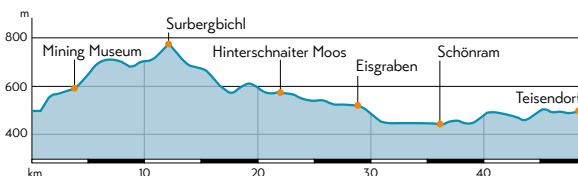

"MILKY WAY" BIKE PATH

Dedicated to Berchtesgaden's dairy cows

The Milky Way Bike Path ("Milchstraßen-Radweg") passes numerous farms that produce fresh Berchtesgaden milk. Starting in Teisendorf, the route initially climbs through several hamlets and villages to the Surbergbichl, in the ad-

jacent Traunstein district. At this point, a detour to the Hochhorn is definitely worthwhile. Then, the route descends through the Surtal valley to Lauter and continues to Schönram. In the last third of the tour, cyclists pass through the villages of

Weildorf, Hörafing, and Rossdorf before returning to Teisendorf. A visit to the Wienerer Brewery and their Bierladl shop is definitely recommended.

ROSSFELD TOUR

Cycling up to over 1,550 meters by road bike

The Rossfeld Scenic Road, Germany's highest public road, is the destination for this high-alpine cycling tour, involving a climb of ca. 1,000 vertical meters. Starting point is the car park at the Watzmann Therme. Following the Berchtesgadener Ache, the route remains generally flat as far as Unterau. Now taking a right turn, away from the main

road, the ascent begins via the Reckensbergstraße, leading to Oberau and then the Rossfeldstraße. Through numerous hairpins, the road climbs to the highest point of this scenic road (1,560 m above sea level). There, a magnificent view reveals itself, across neighboring Salzburg and the Salzachtal. The sight of the Göll Massif compensates you for the effort you

invested in this challenging climb. Afterwards, coast down the southern side, heading towards the South Toll Station, passing by the Obersalzberg and Dokumentation Obersalzberg, before dropping all the way down to the valley and returning to the starting point.

SHOPPING, DINING & ENJOYMENT

Shops and eateries in Berchtesgaden – warm, welcoming
and sincere. Spend time amongst friends!

SHOPPING, DINING & ENJOYMENT

Delicious specialties and top-quality products

Berchtesgaden, with its rich history and long traditions, stands for exceptional quality – that applies both to what is sold in the shops and to what is served in restaurants.

Much of your shopping might well focus on good things to eat and drink. How about original gentian schnapps, distilled right here in Berchtesgaden National Park, perhaps as a souvenir to share with the folks back home? Or a delicious cheese made at a mountain hut? Or tasty beer brewed in the region? Fascinating salt creations from the salt mine in Berchtesgaden? All of this and more belongs in your shopping cart. At weekly markets and farmers' markets, you will come across special tidbits and extraordinary artworks from regional collaboratives and micro producers. Local eateries are committed to regional products, which you will find at elegant star-awarded restaurants, traditional beer gardens and rustic mountain huts. Whether you are in the mood for ultra-Bavarian dishes or upscale cuisine with an international flavor: In Berchtesgaden, you will find the perfect setting for all occasions and tastes.

Milk Shop of the Berchtesgadener Land Dairy

Directly at the production site in Piding, the Berchtesgadener Land Dairy also runs a Milk Shop.

Nowhere else do you have such a large selection of dairy products, from hill farmers and organic producers, directly on site. In addition to milk, yogurt, and butter, you will also find regional deli foods and an excellent selection of Fair-Trade products. For special occasions, they have lovingly packaged gift baskets, along

with accessories for the kitchen, home, sports, and leisure.

Looking for a special souvenir? One suggestion is the "Bergbauer", a milk liqueur created by Berchtesgadener Land Dairy in partnership with the Grassl Distillery. Cream from hut-produced milk is combined with the distiller's craft to create this delightfully creamy milk liqueur. A hint of white chocolate, the fragrance of lush alpine meadows,

and dewy wild herbs from the world's most beautiful mountain landscapes give this liqueur an incomparable taste.

*Under open skies with a magnificent mountain panorama as the backdrop:
the Summer Festival at AlpenCongress Berchtesgaden*

CULTURE

Want to visit a museum – even if it's not a rainy day? Or go out in the evening – to a folk theater, concert or cabaret? There is always plenty to do in Berchtesgaden.

Folk-costume festivals in Berchtesgaden – vibrant traditions

CULTURE

Folk traditions, museums and special events in Berchtesgaden

The typical Bavarian wind-music band is so deeply rooted in the spirit, history and traditions of the people of Berchtesgaden, that you simply have to attend one of the outdoor concerts at least once during your vacation here. Meanwhile, the plays performed by Bauerntheater Berchtesgaden, though somewhat slapstick, are very, very entertaining. At AlpenCongress Berchtesgaden, the congress house in the town center with open views of the surrounding Berchtesgaden mountains, they host an impressively diverse program of cabarets, concerts and gala events. And many a museum with interesting exhibitions invites visitors to learn, marvel and spend time – not just on rainy days. If you are particularly interested in the history of Berchtesgaden, you should definitely join one of the guided tours, led by local guides who also have the occasional anecdote to share.

gaestefuehrer-berchtesgaden.de | T +49 151 56680197

 [youtube.com/DokumentationObersalzberg](https://www.youtube.com/DokumentationObersalzberg)
 [facebook.com/DokumentationObersalzberg](https://www.facebook.com/DokumentationObersalzberg)
 [instagram.com/doku.obersalzberg](https://www.instagram.com/doku.obersalzberg)

Dokumentation Obersalzberg is a museum located inside the former Führersperrgebiet outside Berchtesgaden. In its center was Adolf Hitler's Berghof. In a newly designed permanent exhibition, in combination with rotating special exhibitions along with an extensive events program, the Dokumentation informs visitors about the history of this site and the National Socialist dictatorship.

Propaganda exploited the idyllic mountain scenery to portray Hitler as a down-to-earth politician, a lover of children and nature, a good neighbor, and statesman. However, the moun-

tain residence was never a holiday spot. Though it did occasionally serve private purposes, it was primarily a representational location and center of power. The Obersalzberg became the second seat of government after Berlin. The dictator spent around one quarter of his time in office here and, together with other leading National Socialist figures, took momentous decisions involving persecution, war, and genocide.

Here, with leaders of the Wehrmacht, he made plans to pursue a criminal war. Today, only a few remnants of Nazi times have survived and the grounds have

been redesigned. Buildings that did survive the end of the war have, for the most part, been demolished since the 1950s. Until 1996, the US military used the Obersalzberg for recreational purposes. After they pulled out in 1999, the Dokumentation was opened.

Dokumentation Obersalzberg

Salzbergstraße 41
83471 Berchtesgaden
organisation@obersalzberg.de
obersalzberg.de

RVO No. 838
"Dokumentation
Obersalzberg"

Dokumentation Obersalzberg had been visited by approximately 3.2 million people as of the end of 2021. As a result, the Free State of Bavaria decided to construct a new building that offered more space for both the permanent exhibition and temporary displays. The former permanent exhibition, which had been in place for 22 years, was dismantled, and the old building was transformed into an educational center.

In September 2023, the Institute of Contemporary History Munich-Berlin unveiled the completely revamped permanent exhibition titled "Idyll and Crime."

Bavarian Wind Music – a treat for guests and locals alike

OPEN-AIR CONCERTS in Berchtesgaden

A good old-fashioned concert with the local wind band, enjoyed under a Bavarian white-and-blue sky with imposing mountains in the background – something no Berchtesgaden vacation should be without. From traditional Bavarian pieces to adapted hits, the bands of Berchtesgaden have a multifaceted repertoire. In summer, local wind bands perform for guests and locals on town and village squares throughout the Berchtesgaden region.

30 Berchtesgadener Bauerntheater

The Bavarians are said to have a natural talent for performance and a penchant for theatrics. The Berchtesgadener Bauerntheater showcases the "spicier" aspects of authentic Bavarian life on its own stage, located across from the Franciscan Church. With a crafty wink of the eye and humor in abundance, always a real treat for audiences.

The cherry blossom in front of AlpenCongress Berchtesgaden – every year anew, a beautiful highlight.

Dominated by the majestic Watzmann in the background, centrally located in historic downtown Berchtesgaden, Alpen-Congress Berchtesgaden is a modern, inviting events center. The facilities are spacious and flexible, easy to navigate, and very hospitable. Whether a festive ball or classic conference, congress or workshop, cultural or sporting event – adaptable spaces permit customization and meet the widest variety of demands.

At the Alpen-Congress, guests and locals gather for a broad range of events. Whether it's a folk evening,

concert, exhibition, or a talk, the spectrum of public events in Berchtesgaden is extraordinarily colorful. An integral component of the program during the run-up to Christmas is Berchtesgaden Advent Singing, putting everyone in the mood for the holiday season. In order to attend these elaborate, lovingly planned performances involving up to 100 protagonists, guests travel in from far and wide.

Children are delighted by the fairytales and stories starring Kasperl, staged by the Berchtesgaden Puppet Theater. AlpenCongress is home to Sophie's Café-Restaurant, with outstand-

ing food as well as specialty coffees and cakes. On the bottom floor of Alpen-Congress, Kino Berchtesgaden shows current film hits for moviegoers, big and small.

Hanami set against the majestic backdrop of the Watzmann

The cherry blossom in Kurgarten Berchtesgaden is a truly extraordinary experience in the heart of the Bavarian mountains. Every springtime without fail, nature adorns the Japanese cherry trees at the gates of the AlpenCongress with an abundance and splendor of colors that leaves a deep, enduring impression. Don't forego the opportunity: Celebrate Hanami in Berchtesgaden!

SNOWY ENJOYMENT & WINTER FUN

Reflected in your sunglasses is a breathtaking alpine panorama blanketed in white. You take a deep breath of the crystal-clear, icy-cold mountain air, the snow crunches beneath your winter boots – winter in the Berchtesgaden mountains is absolutely glorious.

SNOWY ENJOYMENT & WINTER FUN

With or without skis – discovering
wintry Berchtesgaden

More than 60 kilometers of pistes at elevations between 600 and 1800 meters welcome alpine skiers and snowboarders to Berchtesgaden. Cross-country skiers are able to pursue their favorite sport on some 100 kilometers of perfectly maintained XC trails. Meanwhile, over 14 kilometers of natural toboggan runs will have you whizzing down the hillsides and enjoying the greatest winter fun of your life. And who would like to join us for a guided snowshoe hike in the snowy mountain world of Berchtesgaden? That said, winter in Berchtesgaden promises to be an impressive experience even without sporting equipment. Lace up a robust pair of boots and head out into the fresh, clear winter air. Countless kilometers of winter hiking paths ensure a good mood in this coldest season of the year – at airy heights taking in those astonishing panoramas, or down in the valley exploring the snowy forests and frozen lakes.

Skiing fun on the Rossfeld

Discover
over 100 kilo-
meters of groomed
cross-country
trails in Berchtes-
gaden.

SLEDDING

Attractive (natural) sled runs entice visitors in and around Berchtesgaden to enjoy an exhilarating ride back down to the valley. Four of them provide you with an easy way to make the ascent (bus or chairlift), while the others need to be tackled “under your own steam”. When you get to the top, first reward yourself with hot tea or chocolate at a mountain inn or poured out of your own vacuum flask, then tighten your scarf, pull on some gloves, and allow the fresh mountain air to breeze past your face as you glide down the hillside.

You can find the addresses of sled runs
in Berchtesgaden on page 74.

CROSS-COUNTRY SKIING

Whether using “skating style” or classic technique, super sporty or purely for enjoyment, under the winter sun or floodlights, cross-country skiing brings joy and gives your muscles some much-needed exercise. The cross-country ski trails in Berchtesgaden offer remarkable variety. Over 100 kilometers of groomed trails extend across wide-open meadows or are hidden away amid the snowy alpine pastures.

You can find the addresses of the Berchtesgaden
cross-country ski trails on page 75.

Perfectly groomed slopes on the Rossfeld

Ski mountaineering route Kleine Reibn with panoramic view

The Berchtesgaden National Park informs you about how to safely navigate the alpine world of the Berchtesgaden mountains in winter and what specific measures you should take to protect nature and wildlife during the coldest season.

ALPINE SKIING

Youngsters “snowplowing” down the bunny slopes and adults “carving up” the pistes: Hobby skiers, families, and absolute beginners all find an ideal playground in and around Berchtesgaden. Whether a panoramic hill blanketed in natural snow, a gentle slope dropping down to the valley, a race piste used for international events, or moguls – with 50 km of downhill skiing to choose from, you’ll have all the variety you could wish for.

You can find the addresses of the Berchtesgaden ski resorts on page 76.

SKI MOUNTAINEERING

A sport deeply rooted in Berchtesgaden's heritage. Even before ski lifts were built and long before the current surge in popularity of this more intensive skiing style, the Berchtesgaden locals were conquering the wintry peaks through their own sheer strength and grit. Today, there are countless opportunities for ski tours, from moderately strenuous climbs to rustic huts, to multi-day adventures inside Berchtesgaden National Park. Whether you prefer cruising down beautifully groomed slopes or the challenges of off-piste powder runs, there is something for everyone to enjoy in this winter wonderland.

Get in touch with the holiday consultants at any of our local tourist information for more information!

32 Berchtesgaden Indoor Ice Rink

Glide across the ice, watch ice princesses practice their pirouettes, and chuckle as the youngsters make their first wobbly attempts on skates. The indoor ice rink in Berchtesgaden promises to be a special experience. Of course, on beautifully polished ice, with skates available to rent plus a small kiosk.

33 Snowshoe Tours with Hilde Bauhofer

Snowshoe tours in wintry Berchtesgaden are quite unforgettable. With the aid of snowshoes, you can enjoy an untouched alpine world far from the cleared winter hiking paths. Hilde Bauhofer knows the perfect spots for her guests to immerse themselves in nature, and without disturbing the local fauna and flora.

SNOWSHOEING

What's the best way to reach popular hiking destinations like the Wimbachschloss, Mor-daualm, or Grünstein when the mountains of Berchtesgaden are blanketed in snow? On snowshoes, of course! They prevent you sinking into the snow, making it easier to access places that are not generally cleared in winter. Destinations at moderate elevations, in particular, lend themselves perfectly to snowshoeing expeditions. In addition to those we already mentioned, the Rossfeld, Jenner area, along with the ascent to the Stubenalm, all promise mildly strenuous, though gloriously wintry snowshoeing experiences.

For tips and recommended snowshoeing routes, feel free to ask the holiday consultants at any of our local tourist information!

THE NOISY "QUIET SEASON"

Of old traditions and contemplative moments in Berchtesgaden

During the run-up to Christmas, known as the "quiet season" in Berchtesgaden, it can actually turn a bit noisy on occasion. Whether the "Butt'nmand'l Lauf" or "Christkind'l

Schießen" – you will encounter quite the array of bangs and jangles reverberating off the mountainsides.

In ancient times, the harsh, cold winter season felt especially eerie and

Loud - the wild clatter and shouts of the Berchtesgaden Butt'nmand'l

The Kramperl and Butt'nmand'l procession originated in the Celtic era. When combined with the Saint Nicholas tradition, it became one of the most important Christian rituals in Berchtesgaden. Groups of young unmarried men are "bound" with long stalks of straw. They attach heavy cowbells around their hips and wear intimidating hand-carved wooden and fur masks. With clanging bells and wild shouts, these eerie figures roam the villages, especially on December 5th and 6th, accompanied by Saint Nick, and fur-clad Gangerl and Kramperl. Often, there's also a small angel, or the "Nikoloweibi," a boy dressed as a girl. For the public, there isn't all that much to see - more a custom that takes place from home to home. Saint Nicholas and his companions step into houses where they either admonish or reward the children.

Lovingly decorated Christmas tree with wooden ornaments showcasing Berchtesgaden craftsmanship.

gloomy to mountain folk. Centuries ago, the Berchtesgaden locals actually believed that by making lots of noise, they could drive away the spirits of darkness and awaken the springtime.

Even louder - Volleys in the Valley

It gets really loud one week before Christmas when the locals begin their daily tradition of firing off volleys. Over 1,100 Christmas participants gather at various public locations or position themselves in front of their own farms. At exactly three o'clock in the afternoon, it begins: individual muffled shots or powerful salvos from large-caliber hand cannons, accompanied by the ringing of church bells, intended to guide the Christkind to Earth. An unforgettable experience. By the way, the "Ver-einigte Weihnachtsschützen" are proud to be part of Bavaria's intangible cultural heritage.

BERCHTESGADEN ADVENT

The historic town center serves as the backdrop for Berchtesgaden Advent, delighting visitors with artisanal crafts, regional products, and cherished traditions. Framed by historic bourgeois homes and the Royal Castle, around fifty lovingly decorated Advent huts are set up. Within this idyllic setting, guests are truly able to savor the Advent atmosphere. Thanks to its unique location in the heart of town, guests have the opportunity to explore not only the Advent huts but also the surrounding inns, restaurants, and numerous local shops.

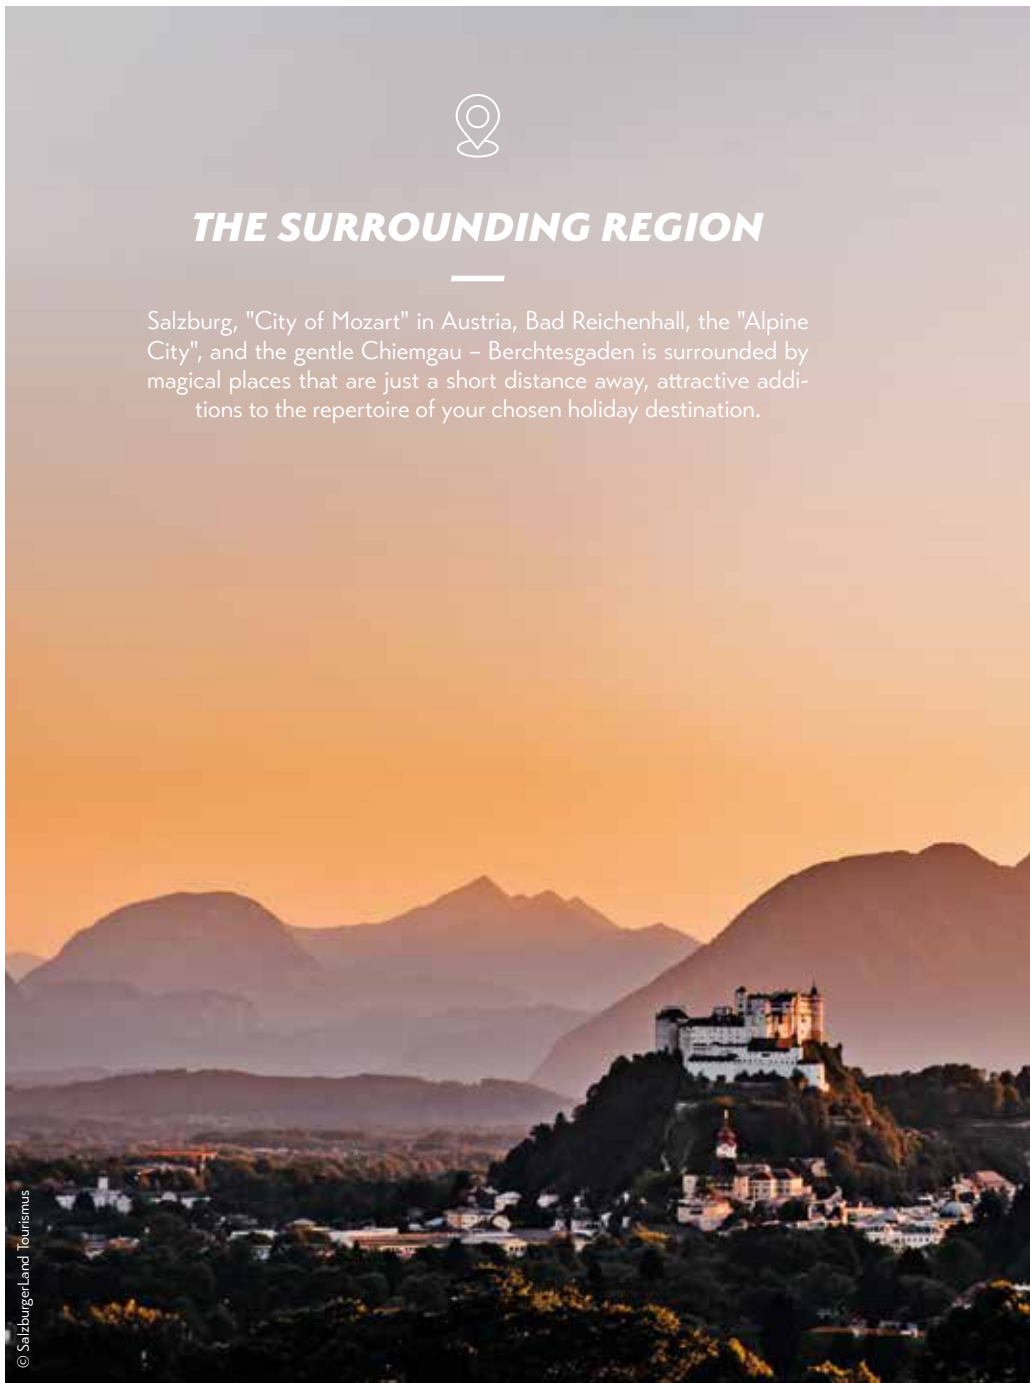

Anticipation is the greatest joy of all, as evidenced by the gleaming eyes of children during Berchtesgaden Advent. In the heart of town, in Neuhaus Garden, young visitors are distracted marvelously as they eagerly await the arrival of Saint Nick, including a miniature train, carousel, and art workshop. Additionally, a diverse kids' program that includes a puppet theater and guided tours of the children's market is offered.

THE SURROUNDING REGION

Salzburg, "City of Mozart" in Austria, Bad Reichenhall, the "Alpine City", and the gentle Chiemgau – Berchtesgaden is surrounded by magical places that are just a short distance away, attractive additions to the repertoire of your chosen holiday destination.

34 Hohensalzburg Fortress

Some might claim: If you haven't visited Hohensalzburg Fortress, you haven't truly seen Salzburg. After all, this over 1,000-year-old castle complex is quite rightly regarded as the symbol of the "Mozart City". Be-

hind its proud walls, the mighty archbishops once ruled the land.

Today, the fortress invites you to embark on a fascinating and entertaining journey through Salzburg's history. There

is much to discover here, high above the rooftops of the UNESCO-protected historic district: from the famous Princes' Chambers to the new Panorama Tour, an interactive journey to the highest point in the city.
